

Databricks Certifications

Currently, Databricks offers the seven certifications listed below (in order of priority).

1. Generative AI Engineer Associate
2. Machine Learning Professional
3. Machine Learning Associate
4. Data Engineer Professional
5. Data Engineer Associate
6. Data Analyst Associate
7. Apache Spark 3.0

Databricks Certifications require the completion of a proctored examination. **Examination vouchers are available for all certifications, with the exception of Apache Spark 3.0 (which will be retired at the end of the year).**

Databricks Badging

Databricks Badges, including Specialty Badges, are accreditations that cover valuable Databricks content. **However, badges are accreditations and are not equivalent to certifications.**

Refer to the [Databricks Enablement Terminology](#) for additional details on the distinctions.

Technical Learning Paths and Specializations at a Glance

Learning Path	Level 1: Fundamentals	Level 2: Associate	Level 3: Professional
Data Analyst Click here to view learning path details	1. Pre-Requisite: Databricks Lakehouse Fundamentals Duration: 2h 30m Type: Accreditation Badge Learning Path: Optional	1. Pre-Requisite: AI/BI for Data Analysts Duration: 2h 2. Pre-Requisite: SQL Analytics on Databricks Duration: 2h Type: Certification Learning Path: Required	<i>No professional designation offered at this time</i>

Learning Path	Level 1: Fundamentals	Level 2: Associate	Level 3: Professional
Data Engineer Click here to view learning path details	1. Pre-Requisite: Databricks Lakehouse Fundamentals Duration: 2h 30m Type: Accreditation Badge Learning Path: Optional	1. Pre-Requisite: Data Ingestion with Delta Lake Duration: 2h) 2. Pre-Requisite: Deploy Workloads with Databricks Workflows Duration: 2h 3. Pre-Requisite: Build Data Pipelines with Delta Live Tables Duration: 2h 4. Pre-Requisite: Data Management and Governance with Unity Catalog Duration: 2h Type: Certification Learning Path: Required	1. Pre-Requisite: Databricks Streaming and Delta Live Tables Duration: 2h 2. Pre-Requisite: Databricks Data Privacy Duration: 2h 3. Pre-Requisite: Databricks Performance Optimization Duration: 2h 4. Pre-Requisite: Automated Deployment with Databricks Asset Bundle Duration: 2h Type: Certification Learning Path: Required
Machine Learning Click here to view learning path details	1. Pre-Requisite: Databricks Lakehouse Fundamentals Duration: 2h 30m Type: Accreditation Badge Learning Path: Optional	1. Pre-Requisite: Data Preparation for Machine Learning Duration: 2h 2. Pre-Requisite: Machine Learning Model Development Duration: 2h 3. Pre-Requisite: Machine Learning Model Deployment Duration: 2h 4. Pre-Requisite: Machine Learning Operations Duration: 2h Type: Certification Learning Path: Required	1. Pre-Requisite: Machine Learning at Scale Duration: 2h 2. Pre-Requisite: Advanced Machine Learning Operations Duration: 2h Type: Certification Learning Path: Required

Learning Path	Level 1: Fundamentals	Level 2: Associate	Level 3: Professional
Generative AI Click here to view learning path details	1. Pre-Requisite: Databricks Lakehouse Fundamentals Duration: 2h 30m 2. Pre-Requisite: Generative AI Fundamentals Duration: 2h 3. Pre-Requisite: Generative AI Fundamentals Accreditation Duration: 10m Type: Accreditation Badge Learning Path: Optional	1. Pre-Requisite: Generative AI Solution Development Duration: 2h 2. Pre-Requisite: Generative AI Application Development Duration: 2h 3. Pre-Requisite: Generative AI Application Evaluation and Governance Duration: 2h 4. Pre-Requisite: Generative AI Application Deployment and Monitoring Duration: 2h Type: Certification Learning Path: Required	<i>No professional designation offered at this time</i>
Governance Delivery Specialization	1. Pre-Requisite: Unity Catalog Essentials Duration: 3h Specialization Path: Required 2. Pre-Requisite: Unity Catalog Upgrade Implementation Duration: 2h Specialization Path: Required	<i>No associate designation offered at this time</i>	<i>No professional designation offered at this time</i>
